

It was my first time to go for trekking and was really great experience.

Introduction

It was my first time to go for trekking and was really great experience. The guide with us (Chuda) adjusted our pace of trekking well. Lodging and food were also very nice. I hope i could continue the trekking few days. 3 nights 4 Days trek was too short!! During the trekking about 2800 m, I felt a light headache due to its high. Chuda noticed it and helped me to carry my luggage. It was very helpful to me, and I was impressed by his good obesuation skills. 1st and 2nd day were easy. 3rd days were the hardest day for me

with long hours walk and climbing down. Which caused horrible ache, over all scenery was very beautiful; especially walking in the forest was pleasant. Chuda san (Guide) had been always very nice, kind, diligent and modest. We are so satisfied with hid accompany, very appreciated. Food was also very good with lots of choices at every restaurant. For lodging , I loked the view of the 2nd night hotel where I was able to enjoy mountains. I also liked the relaxing and beautiful village of the 3rd night. Hotel at pokhara was clean and at a very convenient location.
