

amazing experience

Introduction

Again (this is my second trip with Alpine Asian Trek & Expeditions). This time, i went to Annapurna Base Camp for 14 days. I had really amazing experience with them. Chuda san really taking care of me, and i enjoyed the flexibility in my trip. Chuda san is a great guide, he knows if the weather will change, he knows the snow will comes earlier, so we have to make some preparation and decided to overnight at MBC instead of deurali. The communication was great and i was lucky to meet local people and other inspiring people on the track, also Chuda san can explain very well about Nepal culture and about the country as well,, i really enjoyed trekking with him. While in Kathmandu,,, Pradip is really really a good friend,, i was well taken care of, also i learnt Nepali language from him,, now i can say Tapailai kasto cha? Malai sancha cha, ani hajurlai, ramro,voli vetaula, k cha khabar? thikai cha, and so on =>) I'd love to take Pradip as my brother instead of my guide tho The highlight of the trip was staying a night at Shekhar's house, and had a breakfast together with his family... that was incredible feeling, you are thousands miles away from your home, separate with your family for 2 weeks, and there's a family inviting you to spend the day with them in Nepal. Thank you Alpine Asian Treks for making my trip really special.. will be back again soon! Maro yatra ramro vayo, Chadai vetaula!! Visited December 2016
