

Annapurna Base Camp will reopen soon

Introduction

Annapurna Base Camp was damaged by the heavy snow fall and avalanche in March 2019. All four lodges were collapsed and logistic services were closed. Thereafter, check post of Annapurna Conservation Area at Chmrong did not recommend trekkers to trek to ABC or go own their own risk. There are only four lodges in ABC. In a trekking high season, it is difficult to manage trekkers to sleep in a private room.

Hence, Trekking Agencies Association of Nepal inform that Base camp is going to reopening from 18th of August. The lodges are rebuilt already.
